Smooth-Seal™ J-Series Pre-Formed Clamps - Stainless Steel
[Top](#)

Hosebinder™ Smooth-Seal™ double wrapped, pre-formed clamps lock securely and require hammering. The specially designed inside tab eliminates leak paths common with thin-wall hose. They easily lock under full tension by one lifting movement. Apply the clamps with the ST-001 *Strapbinder®* tool and the HBJ-001 Adapter. Inquire about the availability of *Hosebinder™* clamps other alloys.

Package Quantity: As marked. Price Per Carton.

Stainless Steel J-Series

Type 201

(These clamps are not for use with punch-type tools.)

Hosebinder™ Center Punch Preformed Hose Clamps - (HBC Series) Stainless Steel

[Top](#)

Hosebinder™ double wrapped, HBC series center punch clamps are available in 201 stainless steel or electro galvanized carbon steel. Under conditions of high corrosion, we recommend the stainless steel clamp. Center punch clamps are double wrapped and locked with the conical punch of the HBC300/301 Tensioning Tool. To order the proper size clamp, measure the outside diameter of the hose with the fitting inserted. Select the next larger inside diameter clamp by catalog number. Package Quantity: As marked. Price Per Carton.
