

Novaflex® Heat Traced Petroleum/Water Hose

Novaflex 3240BTHT Heat Traced Petroleum/Water Hose

Novaflex 3240BTHT is the proven Novaflex 3260BT Petroleum Hose with a heat trace element built in to the hose to provide freeze protection down to -30°F.

This hose is designed to handle petroleum products and water base products typically found in the drilling and fracturing industries. Each 15, 20 and 25 ft. length is made so that it can be easily coupled and can also be connected together to make lengths up to 140' long. The heated hose will maintain the internal liquid above 34°F when external temperatures are as low as -30°F.

The method of coupling depends on the application. Crimped on couplings are recommended, but other appropriate couplings can be used. The coupling can easily be attached using the cuff type end.

Novaflex 3240BTHT is made in 15, 20 & 25 ft lengths

Specification Chart

Product No	ID"	WP	MBR	Wt/Ft
3240BTHT-02000-00	2	150 psi	16"	2.1lb
3240BTHT-03000-00	3	150 psi	24"	3.1lb
3240BTHT-04000-00	4	150 psi	32"	3.7'lb

Due to continuous improvements, technical data subject to change without notice. All hose and duct manufactured by Novaflex® are warranted to be free from all defects in material and workmanship. It is impossible to test Novaflex hose and duct under all conditions to which they might be subjected in the field. It is therefore the buyer and/or end user's responsibility to test all Novaflex hose and duct under conditions that duplicate the service conditions prior to installation.
